

Pre-Season Radio & Oxy Viva Maintenance

Attention: Club Presidents, Secretaries & Club Captains

Date: 6 August 2018

Contact: Amy Vella | Executive Officer | e: eo@slsillawarra.com.au | t: 02 4228 3884

Summary	As part of the annual Lifesaving requirements, clubs are to maintain their lifesaving equipment – radios & oxy vivas.
----------------	---

Radio Maintenance

To streamline the process of radio maintenance, there are two options:

1. **Karera Communications**

Please complete the attached form and post your radios to:

Karera Communications | Unit 2/49 Gavenlock Road | TUGGERAH NSW 2259 | 02 4355 1599

- Radio Servicing: \$40.00 per portable radio
- Radio Programming (including selcall): \$15.00 per portable radio

**prices are exclusive of GST*

These prices do not include parts or labour, should repairs to radios be necessary, or of return freight charges.

Once servicing and/or programming is complete, an invoice will be sent via email and dispatch/collection of radios may take place upon receipt of payment. Your return shipping address must be one at which a signature may be obtained upon delivery; we are unable to send radios to Post Office boxes. Standard shipping charges will apply.

If you have any questions at all regarding this process, please do not hesitate to contact us.

2. **JetRescue**

If you wish to have your radios serviced by JetRescue, please bring them into the Branch Office. They will be collected for servicing and returned to the Branch Office for collection. Clubs will be invoiced directly for payment.

- Radio Servicing: \$40.00 per portable radio
(includes anti corrosion treatment)
- Programming/Firmware Upgrade: \$15.00 per portable radio

**prices are exclusive of GST*

Oxy Viva Maintenance

As done in previous seasons, clubs are to deliver their oxy vivas into Surfhouse for servicing – **please deliver to Surfhouse, 64 Smith Street, Wollongong NSW 2500 no later than Monday 13 August 2018.**

You will be contacted once the servicing has been completed to collect.
